### Welcome to Lund University's SoleMOVE!

Lund University student: choose SWAMID and log in with your Student ID (LUCAT id).

**SoleMOVE is the system used at Lund University to manage international student mobility.** As a student, here you will find where and when you can go abroad, as well as apply for exchange studies. You can login at any time to follow the process of your application(s).

If you are a Bachelor's or Master's student interested in exchange studies, you must first ask your programme coordinator whether the programme allows exchange and if so, which semester(s) of the study programme is (are) preferable.

Eligibility requirements, application instructions and deadlines may vary

LUND  
UNIVERSITY

# Home page

After giving your consent to the processing of personal data (first login), you will see SoleMove's home page. You can login at any time as long as your Student ID is valid.

In SoleMove, you can search for exchange destinations abroad as well as create and submit applications for outgoing student mobility, long or short.

The screenshot shows the SoleMOVE web application interface. At the top is a red navigation bar with the 'SOLE NOVO' logo, 'SoleMOVE' text, and icons for home, mail, settings, SoleGRANT, and a 'Log out' button. Below this is a dark purple sidebar on the left containing the text 'TEST', 'TEST Lund University', 'Application form for outgoing student mobility', 'Application form for short student mobility', and the user name 'Elof Lind'. The main content area has a 'Welcome!' message and a large white box titled 'Search for exchange destinations' with options for 'At LU' and 'Abroad'. The footer of the page contains the copyright notice '© 2010-2020 Solenovo Oy'.

# Find your destination

The search tool allows you to use various filters in order to see exactly where you can go on exchange. For example, you can filter your search by country, institution abroad, exchange program, type of exchange, ...

The 'Your home unit' filter can be used to see agreements from your faculty or department. If you pick your department, the agreements from this department will appear as well as the ones that are available for your entire faculty.

Selecting 'Lund University' or 'Division of External Relations' will display all university-wide agreements. Not all university-wide agreements are available to the entire university. The available uniwide agreements will be displayed when selecting a Home Unit.

The search results will be displayed on a world map, with one drop-pin per country. All partners abroad might not appear on that map, for example if addresses are missing.

## Going abroad?

### Find your destination

LUND  
UNIVERSITY

# Advanced search

Clicking on 'Advanced search' will display more search criterias which can be combined.

You can for example combine several countries and EU subject areas in your search.

'Place is available' will allow you to filter when an exchange spot is available during the academic year. Sometimes, the availability is not specified, but for example some universities only accept exchange students during the Spring semester.

The filter 'Application period' will allow you to pick the current or future calls for application, also called announcement (utlysning), so that you can already see which spots will be offered. However, as long as the announcement is not open, you cannot submit an application.

## Going abroad?

The screenshot shows a search interface for finding exchange opportunities. At the top, there is a dropdown for 'Your home unit'. Below this is a section titled 'Advanced search' with several filters:

- Select a country:** Lebanon, Jordan, Egypt
- Type of exchange:** (empty dropdown)
- Exchange program:** (empty dropdown)
- Application period:** (empty dropdown)
- Select an institution:** (empty dropdown)
- EU subject area:** 0313 - Psychology, 023 - Languages, 07 - Engineering, manufacturing and construction
- Place is available:** Autumn

At the bottom, there is a 'Selected criteria' section showing 'Country', 'EU subject area', and 'Place is available' with 'x' icons to remove them. A 'Clear search' button is also present. A 'Search' button with a magnifying glass icon is located at the bottom left of the form area.

# Information sheet / Fact sheet

Below the world map, a full list of results will be available, sorted per country.

Under the university's name, the names of the faculties having an agreement with this partner are displayed.

**Make sure to click on the partner's name in order to see if there is more information available.** Some general information will be displayed, as well as which dates this university will be available for applying. In some instances, important information about the partner university will be found in the **'Additional information'** field. In the **'Enclosures'** field, a fact sheet about the partner university may be available for download.

It is essential to go through the information available for each university you would like to apply to, as you will find a lot of key information regarding exchange studies, such as language and course requirements, information about the university's academic calendar, housing, insurance, visa, useful links, and much more.

**General info**

Aarhus University is an academically diverse and strongly research-oriented institution that creates and shares knowledge. The university was founded in 1928 and today it has several world class research fields. Aarhus University (AU) is a top ten university among universities founded within the past 100 years. It has a long tradition of partnerships with some of the world's best research institutions and university networks. AU has a strong commitment to the development of society that is realised through its collaboration with government agencies and institutions and the business community. The university's goal is to contribute towards solving the complex global challenges facing the world. The university therefore strives to...

# Create and submit an application

In order to create an application, select 'Application form for outgoing student mobility' (unless your faculty offers short term mobility, always choose the first option). Click 'New', select 'Mobility Type S – Study', then select an Application period. In most cases, you should select the Application period of your faculty. But there are exceptions: for example, the University of California has its own call for applications. There is also a call for summer courses abroad that all students can apply to (called 'Application for summer courses abroad 2020').

# Create an application: choose your destination(s)

When choosing your destinations, you can choose the duration of exchange (semester) for each of your chosen university/organization.

Choose the right semester for each destination! Remember that not all destinations are available for all periods, so make sure to check period restrictions carefully before submitting your application.

However, if you would like to apply to the same destination(s) but for different semesters, then you will need to select the unspecified option from the duration of exchange list.

The unspecified option should only be chosen if you are interested in an exchange destination for different semesters, and if places are offered for different semesters by your faculty. Otherwise, you should choose one of the normal semesters (Autumn, Spring, or Full year).

If you have chosen the unspecified option for one or more of your exchange destinations, you should indicate semester preference for each destination in the additional information field, and also motivate this in your Statement of Purpose.

After adding several partner universities/institutions, you have the possibility to sort them in order of priority.

# Enclosures

Make sure to upload your statement of purpose (motivation letter) as well as any other enclosures that may be required alongside your application.

Most faculties also require a CV and a transcript of records (from LADOK), and a Study Plan for all listed universities to be provided with your application.

Some universities (for example, the University of California) require specific documents such as a study plan or a campus priority sheet.

Please make sure to double check that you have uploaded all the necessary documents!

The screenshot shows the SoleGRANT application portal. At the top, there is a navigation bar with icons for home, mail, settings, SoleGRANT, and Log out. Below this, the 'Enclosures' section is displayed. It includes a header with 'Instructions' and 'PDF' icons. A summary of application details is provided, including the deadline (31.08.2020), application number (1665455), applicant name (Lind, Elof), and institution (Lund University). A navigation bar below the summary contains tabs for 'Personal data', 'Exchange study information', 'Current studies', 'Enclosures', and 'Check and send application'. The 'Enclosures' tab is active, showing a text input field for 'Additional data' and a 'Save' button. Below this is a table of uploaded enclosures:

Enclosure name	Enclosure info	Enclosed file

# Confirm or decline your application

After all applications have been reviewed, you will receive an email with the result of your application. If your application has been accepted, please login to confirm or decline your application. Usually, you have 7 days to make a decision. Make sure to check your emails on a regular basis so that you do not miss the deadline! After confirming the result of your application, your faculty's international office will continue processing your application and nominate you to one of our partner universities/institutions. This process varies depending on the faculty and the destination.

- Log in to SoleMove and open your application.
- A new "Acceptance" tab is now available, displaying which destination you have been accepted to.
- Click on "I confirm" in order to accept the result of your application. The status of your application will change to "confirmed".
- Click on "I cancel my application" if you want to withdraw your application or decline this result.

## Certificates and documents

When you have confirmed your exchange, three documents will be automatically generated in your application's Enclosures tab. They can be download

- The Nomination letter can be used for example for your application to a grant.
- The Certificate of English proficiency can be shown to prove that you meet the English language prerequisites
  - Note that some partner universities require you to take an official English proficiency test.
- The Insurance certificate contains LUs insurance policy number from Kammarkollegiet.
